

Tired, Fretful, Thirsty Children

need the same remedy as grown up people. The latter find refreshment and invigoration in SODA WATER but they often forget the little ones. Soda water is much better than plain water to quench thirst, and it is an excellent agent to stimulate the stomach and promote digestion. The medical books say this and we merely quote what they say. Then our soda water just exactly suits the children's taste.

Try our Pilsener Beer remedy. It excels all others.

Tem. dry bulb ... 77	100
Tem. wet bulb ... 69	70
Tem. maximum ... 100	102
Min. minimum ... 77	79
Rel. humidity ... 65	29
Wind, direction ... E	W
Wind, velocity ... 5	8
Precipitation ... 0	0
State of weather ... Clear.	Clear.

BACK TO CHICAGO.—Mr. and Mrs. C. S. McCormick and daughter left Monday night for Chicago after a residence of a couple of years in Phoenix. Mr. McCormick is a well known railroad man of the Windy city, but came to Arizona for the purpose of recuperating his health.

HAY TO NEW MEXICO.—It has often been said that Arizona could not compete with Kansas in the New Mexico hay market, but a carload was sent to New Mexico yesterday and it is believed it is but the first shipment of a new trade that will be opened up during the coming winter.

A SAD MESSAGE.—James Griffin last night received a telegram announcing the death of Henry, III, of Mrs. Laura Kline. Deceased was a sister of R. H. Greene and Mr. Griffin's mother, Mrs. F. S. Griffin. The sympathy of many friends will be extended to them in their hour of affliction.

SUNDAY'S SHOOTING.—An arrest was made yesterday of a young man suspected of having wantedly shot George Charlebois, near the residence of C. P. Leitch, Sunday. The bullet was extracted yesterday and was found to be of 32-calibre. It is believed that the unfortunate boy will lose his leg.

MR. GOGGINS'S TRIP.—The board of supervisors has granted County Assessor L. W. Goggins a leave of absence for six weeks. Mr. Goggins will start tonight on a visit to his former home in Colorado. He will probably not use up all his leave of absence, but it cost him no more to get one for six weeks than for a month.

A NEW INCORPORATION.—Articles of incorporation of the J. M. Creighton Company were filed in the office of the county recorder yesterday. The incorporators are J. M. Creighton, Thomas E. Dalton and J. W. Walker. The object of the incorporation is to engage in the purchase of real estate and architectural enterprises. The capital stock is \$50,000 divided into shares of \$100 each.

CHARLES CLAPP'S SUICIDE.—Los Angeles papers which came yesterday published accounts of the suicide last Sunday of Charles B. Clapp, a former resident of Phoenix and son-in-law of Mr. Ismet. Religious mania and worry over financial troubles are given as the motives for suicide. The former thought, was the prime, if not the only motive, for his financial troubles were chiefly imaginary. His affairs were in very good shape. He was prosperous and had a good ranch, which was only slightly encumbered.

AT WORK AGAIN.—Mr. John Johnson, who was formerly agent of the S. F. P. & P. at Wickenburg, but who came down to Phoenix a few days ago to enjoy a much needed rest, has been assigned to Hillside station, the first stopping place above Congress. He left for his new position Monday night accompanied by his son Ehlen. Mr. Johnson is not strong and as Wickenburg has grown to be a station of considerable importance the freight traffic entailing a great deal of hard work, Mr. Johnson was forced to make the change on account of his physical condition.

SIGNS OF MINING.—J. C. Dohbbs, who has lately returned from a mining trip in Tomba Basin, said he saw many signs of mining activity without having seen a mine or a tunnel. On the way from the basin to Globe, the mail route was lined with ball boxes, showing that back in the hills somewhere, men were more or less permanently engaged in mining. Otherwise, those boxes would not have been there. Prospectors, or those merely engaged in scratching on the surface do not expect to be in one place long enough to receive any mail.

THE BOARD'S WORK DONE.—The territorial board of equalization finished its work yesterday and Messrs. Fredericks, Prescott and Olin of Bouita left for their homes. Mr. Freeman of Tucson went away on Sunday night. Such painstaking work had never been done by an equalizing board in this territory. The figures and tables are absolutely accurate. The members of the board highly complimented the territorial auditor, Dr. Vickers, on the thoroughness with which he has gone into things. The greatest care has been taken to do justice to all sections of the territory.

RETURNED FROM FRISCO.—Irwin Furl, the popular prescription clerk of the Garden City drug store, returned last night from a three weeks' visit in San Francisco. He reports a pleasant time and his word may well be taken, as he has during the trip added twelve pounds to his avoirdupois. While in the city he visited C. Eschman, his former Phoenix employer.

HAMMOCKS.
We have too many hammocks for the time of year, and will sell you one cheap. See our 50c hammock. It is a good one for the money. Better ones at 25 per cent discount from regular prices. . . .
The Phoenix Stationery & News Co.
10 and 12 West Washington Street.

He says Mr. Eschman is doing well and has one of the best paying drug stores in the city, employing eighteen clerks to attend to the wants of his trade. Among them is Mr. Jones, formerly of Phoenix and an employee of Dr. G. H. Kiefer.

DEATH OF ALBERT H. SMITH.—The following taken from the Williams News, records the visit of the death angel to a former Phoenix family. "Albert H. Smith, son of F. M. Smith and wife, died in this city last Sunday from the effects of typhoid fever and erysipelas. The family has lately moved to Williams from Phoenix, where all of the family were sick from fever and it is supposed that the high altitude was too much for the strength of the boy. Erysipelas did not appear until two days before his death, but it appeared as a violent fever. The funeral service was held at four o'clock Sunday evening, conducted by Rev. Gibbons. Two more children of the family are down with the dreaded disease. The unfortunate parents have the sympathy of all."

AN ESCAPED LUNATIC.—Yasabel Mendoza, a trusty, escaped from the asylum yesterday afternoon. He is a powerful man of fifty and weighs 170 pounds. He was a convict and was committed to the asylum from Yuma, but his term in the penitentiary has expired. Yesterday afternoon he went into one of the wards and became angry at another patient, went to the stables, saddled a horse and rode away. He was missed almost immediately and a chase was begun. He was traced toward town, but before reaching here, turned aside, crossed the river and rode toward the lower portion of the town. He turned back toward Phoenix and on one of the north traveled roads below town his track was lost. It was expected that when he was captured there would be an obstinate fight. In addition to his great strength Mendoza has a fearful temper and a determined disposition. He was not regarded as a dangerous lunatic; that is, he has never shown any homicidal. He was taken at Tempe late last night.

A BRIGHT DOG.—The most intelligent dog in Phoenix is a brown spaniel owned by the Chinese proprietor of the Garden City restaurant. One of the dog's duties is to make a daily trip to Chinatown with a basket containing a note. On the last day it rained, he was dispatched on his usual errand and his owner noticed an unwillingness to go out into the wet. But the dog started, walked slowly up the street, now and then stopping and turning around. At last he went on without looking back. The Chinaman watched to see him cross the street to the city hall plaza, but he didn't. His owner started after him and saw him standing in a state of indecision under the awning in front of Glotzbach Bros. store. Finally the dog set the basket down, took the note out, carried it into the street and covered it with mud. He buried it with great care. The Chinaman returned to the restaurant and got a club, for a Chinaman has neither a sense of humor nor an appreciation of brute intelligence. Pretty soon the dog returned wagging his tail as if his conscience were easy. The Chinaman seized him by the collar and pounded the hair out of him in spots. Then he wrote another note and put it into the basket. The dog picked it up and bounded out of the door. Mud and rain were nothing to him now. He started for Chinatown by the most direct route and ten minutes later returned with an honest wag of the tail, which really merited approbation.

THAT SCHOOL OPENING.—The Republican is greatly interested in educational matters and from time to time has endeavored to keep its readers posted as to the date of the opening of the fall terms. By the grace of the members of the various school boards who one by one are drifting back into town, and the assistance of a score, more or less, of its interested readers, this paper will cleave to its purpose and, it is believed, ultimately with success. Some progress has already been made and it can now be definitely announced that the high school will open in this year of our Lord on Monday, September 11. As to the grammar school, the latest bulletin is to the effect that it will begin business on Monday, September 18. Some days ago The Republican announced, on what was believed to be reliable authority, that the grammar school would open September 18. The next day a co-edher in the vineyard came around and left a note on the city editor's table to the effect that a misstatement had been made and to please correct it, as the opening would be on September 11. Wishing to please every one as far as possible, a brief apology was written for thus misinforming the public, and it was then announced that the grammar school would open on the 11th. Last

evening a reporter tracked G. H. N. Lahr, high school trustee, in his lair and was informed that the high school would open positively on the 11th, unless the buildings should be burned in the meantime or the teachers selected succumbed to the chilling hand of death. As for the grammar school, Mr. Lahr said that his latest information was to the effect that it would open on the 18th, but he would not vouch for it, as they may have changed their minds. The reporter in his travels could not find Professor Creager, who undoubtedly could give some light on the subject and Mr. Robinson, who had just returned from the coast, is so absorbed in private business it was thought best not to disturb him for a day or so. Mr. Pickas is just now engaged in bathing his toothbrushes in the placid Pacific and Mr. Armstrong, the other trustee, is getting his ear frosted on the San Francisco peaks, so it is confidently believed that September 18 goes unless some of these gentlemen upset the calendar again. In the meantime if any more dates are submitted the readers of The Republican may be assured they will be told all about it.

A PAINFUL COINCIDENCE.—In a suite of rooms at the Ford hotel two men occupy as comfortably as they can a couple of beds which to many in the city would appear luxurious couches, but which to them are getting as hard as the hard side of a plank. Both men are suffering from an injury to their right ankles, and the time and manner in which they received their injuries is somewhat remarkable. One of the gentlemen is Mr. S. J. McDonald, a well known cattleman of this valley, and the other is Mr. John B. Cromb, of Clifton, cattle buyer for the Arizona Copper company, which supplies the Clifton market with fresh meat. Mr. Cromb came over from Clifton about a week ago to purchase cattle of Mr. McDonald, and on the 17th they went about ten miles west on the Yuma road to a pasture where the cattle were grazing. In some manner Mr. Cromb's mount became frightened and after charging around a bit managed to unseat his rider. Mr. Cromb landed on his right foot, which twisted under his weight, and both men began plunging. His horse jumped ahead, twisting Mr. McDonald's foot backward, severely straining the ankle. Though he suffered a good deal he managed to ride the horse into town and went to Dr. Duffield's office to see how Mr. Cromb was getting on. The doctor examined his limp and told him to take his shoe off, which he did and it has been off ever since, with a prospect of not being called upon to do much knocking about for some time. No bones were broken, but the ligaments of the ankle were torn loose and he really has a more painful limb than his fellow sufferer, who sustained the breaking of the bones. The two gentlemen are making the best of what in some respects was a bad cattle deal and agree with those who come to call upon them that their mutual misfortunes are excruciatingly funny, although they are not given to much laughing about it. Two pairs of crutches adorn their rooms, but thus far they, like the wounded limbs, are of no use to them, though their many friends sincerely hope they will be able to run a foot race by the time next field day rolls around.

BROKER WILL BE ROUGH RIDER.

Was One With Roosevelt and Now Will Ride in a Western Show.

Orange, N. J., Aug. 22.—Stephen Van Rensselaer, Jr., a broker at 26 Broad street, New York, has decided to take a vacation from the cares of business and will travel for a year with a wild west show. Mr. Van Rensselaer lives on the borders of Hutton Park, West Orange. Carlisle's wild west show is giving an exhibition this week at Highland Park, a resort on the Orange Mountain, and on Monday Mr. Van Rensselaer went over to see the show. When the performance was concluded he sought out Frank Brewer, the president of the company which owns the park, and asked for an introduction to Mr. Carlisle.

Soon after he had met the wild west man, Mr. Van Rensselaer said that he would like to go with the show and give exhibitions of rough riding. The young man enlisted with Roosevelt's Rough Riders for the Spanish war, and is a member of the Essex troop, the crack military organization of New Jersey. As soon as he had given an exhibition of his ability as a rider Mr. Van Rensselaer was engaged for the show. He will travel with it simply for recreation. Mr. Van Rensselaer

is a grandson of Mrs. John G. Heckscher, and his mother is a sister of Mrs. John Christopher Winderling, well known in New York society, and of Mrs. Arthur B. De Saulles of Germantown.

The very best woman who will admit that she likes wicked men better than good ones can't understand how men feel the same way about whisky.
